**A proposal was made to grant the application.**

Proposed by: **Councillor John Healy**

Seconded by: **Councillor Eva Hughes**

**For: 6 Against: 1 Abstain: 2**

**Decision: Planning permission granted subject to the addition of the following Conditions:-**

- 13. Notwithstanding the submitted details, the proposed turning head located adjacent to Plots 27,28 and 29 shall not be marked up to accommodate visitor parking bays.**

**REASON**

**To ensure the site layout does not cause conflict between pedestrians and vehicles.**

- 14. Before the development is brought into use, that part of the site to be used by vehicles shall be surfaced, drained and where necessary marked out in a manner to be approved in writing by the Local Planning Authority.**

**REASON**

To ensure adequate provision for the disposal of surface water and ensure that the use of the land will not give rise to mud hazards at entrance/exit points in the interests of public safety.

15. The vehicle turning space as shown on the approved plans shall be constructed before the development is brought into use and shall thereafter be maintained as such.

**REASON**

To avoid the necessity of vehicles reversing on to or from the highway and creating a highway hazard.

16. Before the development hereby permitted is brought into use, the parking as shown on the approved plans shall be provided. The parking area shall not be used otherwise than for the parking of private motor vehicles belonging to the occupants of and visitors to the development hereby approved.

**REASON**

To ensure that adequate parking provision is retained on site.

17. Prior to the commencement of development a Construction Traffic Management Plan (CTMP) shall be submitted to and approved in writing by the Local Planning Authority. The CTMP shall be adhered to throughout the construction period (unless otherwise approved in writing by the LPA) and shall include details of (but not limited to):-

- Routing, volumes and timing of construction vehicles
- Measures to control mud and dust from the site by construction vehicles during works.
- Details of dilapidation surveys, pre commencement and post completion construction activity (to determine any damage attributable to the construction traffic and remedial measures thereafter).

**REASON**

In the interests of highway safety and local amenity.

18. No development approved by this permission shall be commenced prior to a contaminated land assessment and associated remedial strategy, together with a timetable of works, being accepted and approved by the Local Planning Authority (LPA), unless otherwise approved in writing with the LPA.

- a) The Phase 1 desktop study, site walkover and initial assessment must be submitted to the LPA for approval. Potential risks to human health, property (existing or proposed) including buildings, livestock, pets, crops, woodland, service lines and pipes, adjoining ground, groundwater, surface water, ecological systems, archaeological sites and ancient monuments must be considered. The Phase 1 shall include a full site history, details of a site walkover and initial risk assessment. The Phase 1 shall propose further Phase 2 site investigation and risk assessment works, if appropriate, based on the relevant information discovered during the initial Phase 1 assessment.**
- b) The Phase 2 site investigation and risk assessment, if appropriate, must be approved by the LPA prior to investigations commencing on site. The Phase 2 investigation shall include relevant soil, soil gas, surface and groundwater sampling and shall be carried out by a suitably qualified and accredited consultant/contractor in accordance with a quality assured sampling and analysis methodology and current best practice. All the investigative works and sampling on site, together with the results of analysis, and risk assessment to any receptors shall be submitted to the LPA for approval.**
- c) If as a consequence of the Phase 2 Site investigation a Phase 3 remediation report is required, then this shall be approved by the LPA prior to any remediation commencing on site. The works shall be of such a nature as to render harmless the identified contamination given the proposed end-use of the site and surrounding environment including any controlled waters, the site must not qualify as contaminated land under Part 2A of the Environment Protection Act 1990 in relation to the intended use of the land after remediation.**
- d) The approved Phase 3 remediation works shall be carried out in full on site under a quality assurance scheme to demonstrate compliance with the proposed methodology and best practice guidance. The LPA must be given two weeks written notification of commencement of the remediation scheme works. If during the works, contamination is encountered which has not previously been identified, then all associated works shall cease until the additional contamination is fully assessed and an appropriate remediation scheme approved by the LPA.**

**e) Upon completion of the Phase 3 works, a Phase 4 verification report shall be submitted to and approved by the LPA. The verification report shall include details of the remediation works and quality assurance certificates to show that the works have been carried out in full accordance with the approved methodology. Details of any post-remedial sampling and analysis to show the site has reached the required clean-up criteria shall be included in the verification report together with the necessary documentation detailing what waste materials have been removed from the site. The site shall not be brought into use until such time as all verification data has been approved by the LPA.**

**REASON**

**To secure the satisfactory development of the site in terms of human health and the wider environment and pursuant to guidance set out in the National Planning Policy Framework. This is required prior to commencement to ensure that the necessary mitigation measures can be put in place should any contamination be found.**

- 19. Should any unexpected significant contamination be encountered during development, all associated works shall cease and the Local Planning Authority (LPA) be notified in writing immediately. A Phase 3 remediation and Phase 4 verification report shall be submitted to the LPA for approval. The associated works shall not re-commence until the reports have been approved by the LPA.**

**REASON**

**To secure the satisfactory development of the site in terms of human health and the wider environment and pursuant to guidance set out in the National Planning Policy Framework.**

- 20. Any soil or soil forming materials brought to site for use in garden areas, soft landscaping, filing and level raising shall be tested for contamination and suitability for use on site. Proposals for contamination testing including testing schedules, sampling frequencies and allowable contaminant concentrations (as determined by appropriate risk assessment) and source material information shall be submitted to and be approved in writing by the LPA prior to any soil or soil forming materials being brought onto site. The approved contamination testing shall then be carried out and verification evidence submitted to and approved in writing by the LPA prior to any soil and soil forming material being brought on to site.**

**REASON**

To secure the satisfactory development of the site in terms of human health and the wider environment and pursuant to guidance set out in the National Planning Policy Framework.

In accordance with Planning Guidance ‘Having Your Say at Planning Committee’, the Deputy Mayor, Councillor Glyn Jones, Local Ward Member and Mrs. Susan Broughton spoke in opposition to the application for the duration of up to 5 minutes each.

In accordance with Planning Guidance ‘Having Your Say at Planning Committee’, Mr. Martin Philips, on behalf of Ongo Homes, spoke in support of the application for the duration of up to 5 minutes.

(The receipt of additional Conditions were reported at the meeting).
