NHS Doncaster CCG approach to End of Life Care

Jo Forrestall
Head of Strategy and Delivery

A decorative graphic consisting of multiple thin, light blue lines that curve and flow across the bottom of the slide.

Helping you keep well

Background

Around 3,000 people die each year in Doncaster

- Higher deaths in hospital than national average
- Lower deaths in Care Homes than national average
- Lower deaths in hospice than national average
- Average number of deaths at home

National Survey of Bereaved people (VOICES) 2016

81% of responders stated that their loved one wanted to die at Home

Ethos is that patients, carers and families should be supported with a care package which supports individuals in terms of preferred priorities for care and preferred place of death.

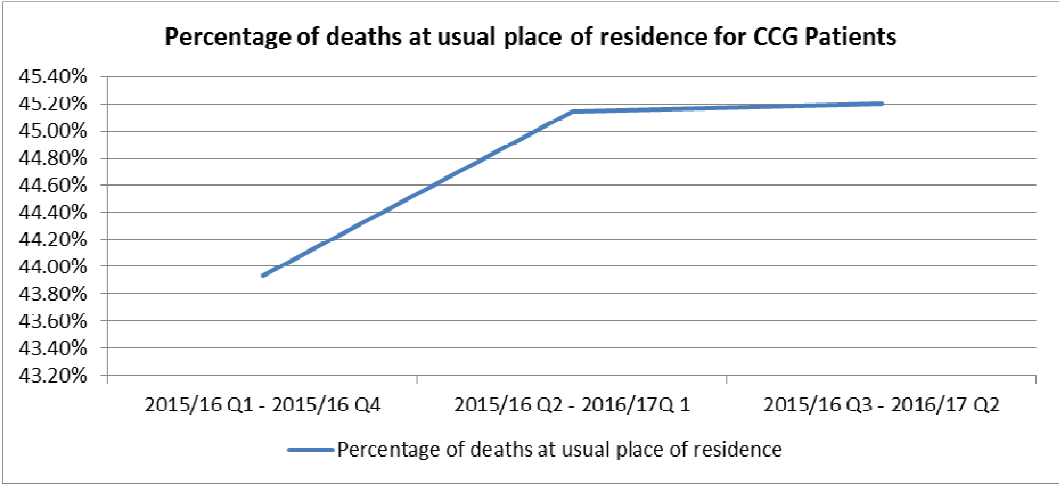

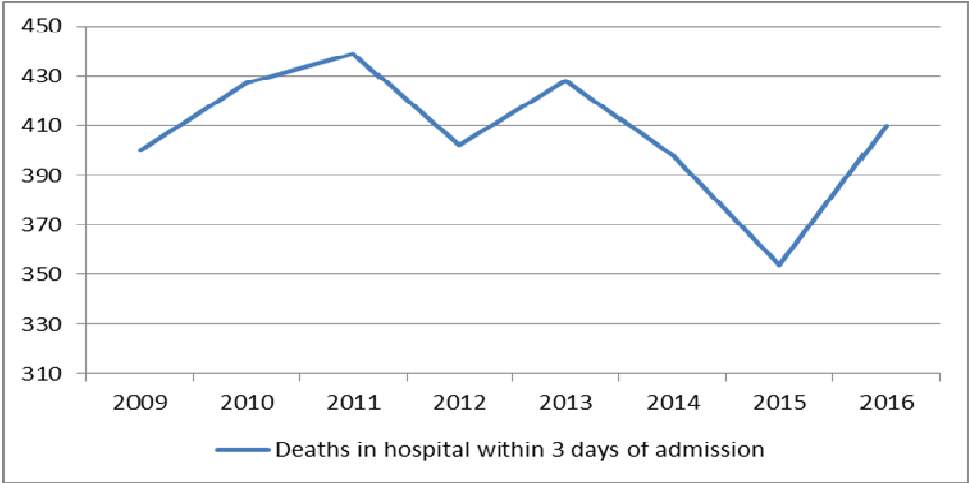

Progress to date

- Strategic
 - Identified as a CCG priority area
 - Clinical leadership from CCG Board member
- Contractual
 - Local CQUIN to support joint working
 - Performance
