Annual Fraud Indicator, March 2012

Introduction

Purpose of your fraud briefing

- Opportunity for councillors to consider fraud detection performance, compared to similar local authorities
- Reviews current counter fraud strategy and priorities
- Discuss local and national fraud risks
- Reflect local priorities in a proportionate response to those risks

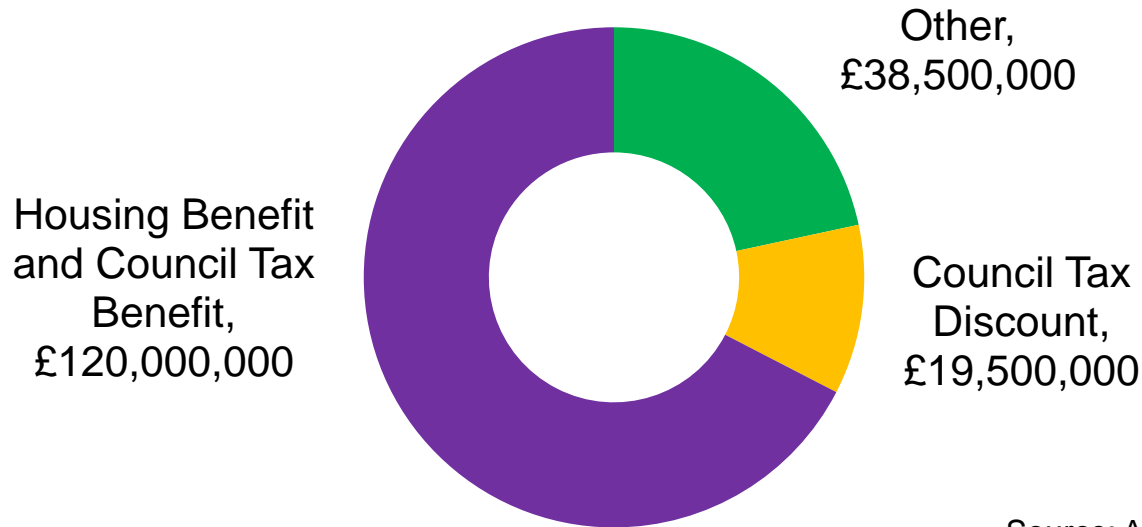

Your council is compared with the metropolitan districts and unitary authorities of the north west, north east and Yorkshire and the Humber regions

National Picture 2012/13

107,000 total cases detected with value of £178m (excluding social housing fraud)

Nationally, the number of detected frauds has fallen by 14% since 2011/12 and the value by less than 1%

Interpreting fraud detection results

- Contextual and comparative information needed to interpret results
- Detected fraud is indicative, not definitive, of counter fraud performance (prevention and deterrence should not be overlooked)
- No fraud detected does not mean no fraud committed (fraud will always be attempted and even with the best prevention measures some will succeed)
- Council who look for fraud, and look in the right way, will find fraud (there is no such thing as a small fraud, just a fraud that has been detected early)

Your council is highlighted in yellow in the graphs that follow
