**EXEMPT REPORT**

2. This report is not exempt.

**RECOMMENDATIONS**

**WHAT DOES THIS MEAN FOR THE CITIZENS OF DONCASTER?**

If the priorities are addressed successfully then Doncaster could see a narrowing of the gap in health between Doncaster and England as a whole.

**BACKGROUND**

5. The JSNA is commissioned by the Health and Wellbeing Board. It is an analysis of the current and future health and wellbeing needs of Doncaster. The report reflects the style and content requested by the board at an away day in February 2014.

The JSNA has recommended the following priorities to the Health and Wellbeing Board:

1. Maintain a focus on dementia.
2. Address the impact of child poverty and focus on improving breastfeeding rates especially at 6-8 weeks and reducing maternal smoking.
3. Support efforts to improve attendance at school.
4. Address the obesity epidemic in Doncaster.
5. Address the high levels of smoking in the borough especially in groups such as routine and manual occupations.
6. Maintain a focus on lung cancer and cancer generally - smoking and obesity are major contributory factors to cancer.
7. Increase the numbers of people who are physically active.
8. Support efforts to increase volunteering.
9. Support efforts to improve the quality of people's living accommodation.
10. Look at how Doncaster's green space resources can be best utilised to improve health and wellbeing.
11. Ensure carers are supported and able to maintain their own wellbeing.
