How will this contribute to improving health and wellbeing in Doncaster?
Following the LGA Peer Review visit in December a number of areas were highlighted for Health and Wellbeing Board development. The development and maturity of the board has a direct impact on the health and wellbeing of the population – if the board's focus and business is not aligned with population needs then the board will not fulfil its statutory obligations to improve the health and well-being of the local population.

Recommendations
The Board is asked to:- RECEIVE, CONSIDER and AGREE the proposal for board development and to endorse the approach and recommendations.
