Subject: Old Brew House Cusworth

I would like to object to the application for a license for the Old Brew House to play live music.

This is outside and until midnight and will be able to be heard over a distance as is the music from weddings. They are one thing and not very often but this will be every night, every week.

The parking in Cusworth village is a problem now and the likelihood is that this will be much worse with a bar as they can park closer and for free.

It will increase the use of the village at unsociable hours as people go home and back to cars. This in itself is not a problem but my guess is there will be a certain percentage that will be the worse for drink and who is going to police this.

There needs to be more consultation with the village and live music outside certainly until midnight is not really acceptable.

Thank you
