Other Implications (please list)		

How will this contribute to improving health and wellbeing in Doncaster?

The Health and Wellbeing Board Outcome Framework and the Doncaster Place Plan both highlight the importance of prevention in meeting the triple aim of improving wellbeing, quality and maintaining financial grip. This report identifies the key developments in prevention and early help since the publication of the place plan and describes an emerging 'people powered' approach to prevention.

Recommendations

The Board is asked to NOTE the report, COMMENT on and SUPPORT the Doncaster 'people powered' approach to Better Lives.
