The licensing department,

I am a resident at number 16 Mere Lane Armthorpe along with my partner and two young boys. I am writing with concerns to the proposed application at number 18 Mere Lane to allow Londis to serve alcohol between the hours of 6am-11pm.

We are more than happy with the premises opening as a Londis but we do have high concerns about the hours stated to be serving alcohol. We feel these times will bring unwanted antisocial behaviour, especially on an evening, this resulting in groups of youths loitering and causing unnecessary noise at the time my young children will be going to bed. This is not something I want outside my house. There is a small oap community just behind and this could make the feel scared of leaving there homes.

I also feel it is too close to a school to be selling alcohol and I find this application coincides with the school holidays so there are potentially no passing parents to object. My children will be attending this school in years to come and I'm sure my feeling about it selling alcohol at these times will be the same then. I propose the hours of serving alcohol should be later in the morning when the children are in school and much earlier in the evening than 11pm.

King regards
