4. Good strategic intelligence and performance management arrangements will ensure the board can target improvements to services, and ensure peoples experiences of the local health, care and wellbeing system are positive.

BACKGROUND

5. After consultation and workshops the outcomes framework for the Health and Well Being board was agreed at the board meeting in January 2018. Although there is a need be flexible, to meet the future needs of the health and care

system and board priorities, the main strategic frame to monitor progress is in place.

- The framework is based upon two criteria so a matrix can be formed, firstly against a life course categorisation (All Age, Starting Well, Living Well and Ageing Well) and secondly against a segmentation of care (Wellbeing, Prevention, Care and Support). This is consistent with the current Doncaster Health and Wellbeing Strategy.

	All ages	Starting well (ages 0-17),	Living well (ages 18-64),	Ageing well (ages 65+),
Wellbeing				
Prevention				
Care				
Support
