Council

**NHS**

Doncaster  
Clinical Commissioning Group

This is a short version  
of the BIG PLAN

The BIG Plan is for  
people with a  
learning disability  
and/or autism and  
family carers

The BIG Plan is from  
2021 - 2024

The BIG Plan is for  
people of ALL Ages

## The BIG Plan – 2021 – 2024

This BIG Plan is for people of ALL ages, children, young people, adults and older people.

People told us that the following five things were the most important:

1. Finding out if someone is autistic.

2. Learning and being part of our communities

3. Getting a job

4. Carers and short breaks

5. Housing and support

## **What are we doing about these five important things?**

### **We are:**

- Making better plans for people to find out if they are autistic and plans to get the right support.
- Making sure everyone gets a good education and has a good future.
- Making sure people can have a job if they want one.
- Making sure carers are listened to about what is important to them, to help them continue to care for family members with the help of short breaks.
- Making sure the right housing and support is available.

## Other important things you told us were:

- Making health services better
- Moving from children's services to adult services.
- Making care better

We also want to make sure people with a learning disability do not die young, and have healthy and happy lives.

We also want to make sure people do not get COVID 19 and get a vaccine to protect them.

If you would like to find out more or keep in touch about Doncaster's ALL Age BIG Plan for people with Learning Disabilities and Autism you can contact:
