Amount of funding	£16,250
Description of each project, it's aims and objectives	<p>Project Description: Homeless Veterans Wellbeing Fund</p> <p>Aims and objectives: To provide one off items to veterans that have been at risk of homelessness or are currently homeless and are moving into housing provision, which will benefit their health and wellbeing and prove to have overall value to them. This will be an addition to local funding schemes and will compliment not duplicate these schemes, the purpose being to develop sustainability independence and aspiration for the surrounding elements of the individual's quality of life. For example, funding a laptop to enable a person to job search and undertake online courses.</p> <p>Alignment to South Yorkshire Covenant Action Plan This proposal supports the themes and objectives of The South Yorkshire Armed Forces Community (AFC) Covenant Annual Plan, particularly around the themes of housing, finance, employment and health.</p> <p>Plan of Action: We will compile an application form which will outline criteria that professionals can use to refer in. We will also have a monitoring system and tracker to monitor spend and log positive outcomes.</p> <p>Project Detail: We would have a simple referral system and application form where we would require proof of service and a request for items. This will then be reviewed and authorised or rejected based on need. We would look at the benefits the funding could bring to the individual and the outcomes they hoped to achieve from receiving an item. These types of 'Non-essential' items are often not funded with other schemes which would make this fairly unique in Doncaster in terms of the aims of the project and the overall outcomes we hope to achieve.</p>
