Post 16 Transport Policy Statement 2022/2023

Updated April 2022

Post 16 Travel Assistance

Introduction

There is no automatic entitlement to free home to school or college transport once a student is over 16 years and beyond statutory school age. The responsibility for arranging appropriate transport rests with the student and their parents/carers.

Under the Raising the Participation Age agenda, from September 2014 onwards students are required to be in some form of education, employment or training until they reach the age of 18. This could involve continuing in full time education, undertaking an apprenticeship, mixing full time work with study or combining part time training with volunteering. However, there is no change in the compulsory school leaving age and no extension to the entitlement to free transport beyond this (end of Academic Year 11).

Summary of Policy Statement and Main Objectives

This statement provides a summary for young people and their parents/carers of the transport arrangements available for learners who are:

- Over statutory school age and under 19 years of age (on 1st September); or
- Aged between 19 and 25 with a learning difficulty and/or disability; and
- Living within the Doncaster Council area before commencing their education, employment or training. (Learners who are not resident in Doncaster should refer to the transport policy statement issued by their home Local Authority for further information); and

Concessionary fares, discounts, subsidies, passes or travel cards available for Post 16 students attending sixth form at school, college or other places of learning or training/apprenticeships

The Zoom 16-18 Travel Pass is available to all young people, including those on apprenticeships, allowing for cheap travel anywhere in South Yorkshire at any time. This means journeys by tram or bus cost only 80p plus you can get half fare on Northern Trains. In addition the pass can be used over summer meaning cheaper travel in August.

You can apply if you:

16-19 Bursary Fund

You could get a bursary to help with education-related costs if you're aged 16 to 19 and:

- studying at a publicly funded school or college in England - not a university
- on a training course, including unpaid work experience

A publicly funded school is one that doesn't charge you for attending it

Or

- If you are over 19 and on a course you started aged between 16 and 18
- If you are over 19 and have an Education, Health and Care Plan (EHCP)

A bursary is money that you, or your education or training provider, can use to pay for things like;

- clothing, books and other equipment for your course
- transport and lunch on days you study or train

There are two types of bursary:

- A bursary for students in vulnerable groups
- A discretionary bursary

Students in vulnerable groups could get a bursary worth up to £1,200, depending on your circumstances and benefits.

You could receive a vulnerable student bursary if:

- you're in or recently left local authority care
- you get Income Support or Universal Credit because you're financially supporting yourself
- you get Disability Living Allowance (DLA) in your name and either Employment and Support Allowance (ESA) or Universal Credit
- you get Personal Independence Payment (PIP) in your name and either ESA or Universal Credit

The amount you may get depends on the costs you have and what you need for your course. This might include money for books, equipment or travel costs to school or college.

You could get a discretionary bursary if you need financial help but do not qualify for a bursary for students in vulnerable groups. Your education or training provider decides how much you get and what it's used for.

Your school or college will have their own criteria for discretionary bursaries. They'll look at your individual circumstances - this usually includes your family income.

If you are over 19 you are only eligible for a Discretionary Bursary

Your provider will decide how you get your bursary. Subject to certain criteria, you might receive:

- an instalment paid in cash, by cheque or bank transfer
- or things like a travel pass, free meals or books instead of money

Some providers also offer one-off payments to cover study trips or travel for university interviews.

A learning provider can stop any bursary payments if you break any of the rules attached to the bursary, for example if you don't attend regularly

You can apply to your learning provider, school or college for a bursary and should do this as soon as you know where you will be studying.

Ask student services about their criteria and any evidence you'll need.

More details on the student bursary scheme can be found at [Government 16 to 19 Bursary Fund Information](#)

Help for learners with learning difficulties and/or disabilities or students facing difficulties in following their courses

Where young people are unable to travel to their place of learning independently and have an Education, Health and Care Plan that identifies that they are not independent traveller, the Local Authority will consider applications for assistance with travel.

Any assistance will normally be the most appropriate, taking into account the young person's safety and needs in accordance with the approved assessment criteria.

Individual transport will only be provided in exceptional circumstances and where the need for individual transport has been clearly identified and agreed as part of the application process.

A student will normally be expected to share a vehicle with other or students.

Any assistance provided will be with the express aim of developing independence, reducing reliance on individual transport in preparation for adult life.

Applications for assistance with travel for young people who are not independent travellers but who do not have an EHC plan aged 16-18 can be considered on an individual basis but will only be agreed in exceptional circumstances.

You can contact the Special Educational Needs department for more information on 01302 737209/737210/737211 or via email: sen@doncaster.gov.uk

Special Educational Needs Students over the age of 19

Individual transport needs will be assessed against set agreed criteria, by the appropriate Officers with the Local Authority for students who are;

- over the age of 19 and under 25 years of age on 1 September each year; and
- ordinarily resident in the LA area; and

- have an EHCP and a Social Services Assessment of Need which includes, or included, in order to meet the needs of the student, a requirement for transport; and
- be registered or registerable as disabled under the Chronically Sick and Disabled Persons' Act 1970; and
- Attending a course funded by the Education and Skills Funding Agency at a local FE College which has been agreed as appropriate to meet the needs of the student, unless attendance on a course at another institution has been agreed as more appropriate to meet a specific educational and/or social need of the student.
- Continuing to progress in learning. Progression in learning must be evidenced against outcomes in the EHCP. Lack of progression may mean that transport will no longer be approved, depending upon the circumstances. Funding will not normally be provided where a student repeats a course or studies at the same academic level as one previously studied.

Assessment may include undertaking a transport assessment with trained travel trainers. Where assistance with transport is deemed necessary it will be provided in accordance with the provisions of this section until the completion of the course for which it was approved or the end of the academic year in which the student attains the age of 25 years whichever is the earlier. Assistance with transport will be subject to an annual review and/or reassessment.

Independent Travel Training

Doncaster Council provides a package promoting independent travel for young people with Special Educational Needs/Disabilities (SEND) which supports their progression into adulthood. Independent Travel Training is tailored to the needs of the young person to assist with the development of their travel skills and will allow them to access public transport to get to and from their education provider.

To access Independent Travel Training, a referral can be made by anyone who works closely with an individual, such as school, college, tutor or parent/carer. Training is delivered by a travel buddy on a 1:1 basis and is delivered in 'real time' on a pre-approved route. A travel buddy will stay with them while they practise their journeys from home to school or college.

Once a young person feels confident that they are able to make the journey between home and school or college independently, they will be expected to make future journeys on their own. Any dedicated taxi or other transport will be cancelled when the candidate and their Travel Buddy feel confident that the trainee can travel independently.
