Safer Streets Round 4

(Background Information)

The total bid is worth £750,000, which will be used to develop projects across Doncaster, based upon the three criteria of tackling neighbourhood crime, anti-social behaviour and violence against women and girls.

Our successful bid focused upon CCTV and lighting schemes in parks and public spaces, which were identified from our consultations and analysis, as being areas where the public (particularly Women and Girls) felt unsafe. Using the Home Office funding we will also be able to further develop youth diversionary schemes in areas affected by anti-social behaviour and educational programmes in schools across Doncaster to raise awareness of the impact of anti-social behaviour.

Project leads have been identified, enabling us to commence the various projects across the Borough. Each of the project leads (referenced in the table below) will be in a position to update elected members on the progress of projects in their areas. Marcus Isman-Egal is the lead for the Boroughwide project working with young people in schools.

Area	Project Lead	Summary of Projects
North	Ashley Evans	Carcroft Park <ul style="list-style-type: none">• Additional solar lighting on footpaths• Increased CCTV coverage in priority locations Great North Road Woodlands Corridor <ul style="list-style-type: none">• Increased CCTV coverage in areas identified as key locations for ASB and perceptions of safety
South	Steve Thomas	Conisborough Town Centre <ul style="list-style-type: none">• Extension of existing CCTV network to include vulnerable areas where the public feel unsafe. Bawtry Town Centre <ul style="list-style-type: none">• Working with local businesses to develop a safer streets pilot area, using the principals of purple flag and supported by CCTV assets at key locations.

East	Kim Markham	<p>Stainforth Village New Park Estate, Hatfield Jubilee Field, Duncroft Playing Fields, Edenthorpe Hall School and Armthorpe Village</p> <ul style="list-style-type: none"> • Increased CCTV coverage in areas identified as key locations for ASB and perceptions of safety
Central	Joanne Evans	<p>Lower Wheatley/ Thorne Road</p> <ul style="list-style-type: none"> • Additional solar lighting on footpaths traversing town fields. • Increased CCTV coverage in priority locations • Highways re-design to route vehicles through CCTV/ANPR channels in areas used by kerb crawlers • Alleygates • Removal of solid wall at Pocket Park and replacement railings <p>Wheatley and Intake MUGAs, Clay Lane Park, Grove Park and Sandal Park</p> <ul style="list-style-type: none"> • Increased CCTV coverage and improved lighting in key locations
