

# Doncaster's Learning Disability Partnership Board

Let us introduce ourselves...

**Mark Johnson**

**Raymond  
Humphryes**

**Cllr Glynis Smith**

**Annika Leyland-  
Bolton**

# Where it started ...

- Decisions were being made about people with a learning disability without us.
- CHAD were invited to the board in 2002
- We said 'Hold up' – why aren't people with learning disabilities involved in these decisions.

**THINGS HAVE CHANGED ...**

# Our board...

- We meet in person.
- Every 2 months.
- Throughout COVID we met on-line.
- People with a learning disability, family carers and services who support people with a learning disability attend.
- We invite guest speakers when we need to.

**No decision about us without us**  
**This became our motto**

Working together can change things

For example – a mini bus that had on the side ‘thorne mentally handicaps’

We have our say on important things and things that matter to us

# How it works

- We produce the agenda together

- The board is co-chaired

- We use traffic light cards to communicate

- Everyone has their say

- We listen and respect each other opinions

- The minutes are easy to understand

- When people come to the board we ask that they share information that is easy to understand

# The difference it makes

- Gives me and people a voice
- Celebrates the good and learn from the bad
- Something is done about what we say
- Sends out a message people with a learning disability can achieve – people just need to be given the right support at the right time.
