Health and Wellbeing Strategy

Health and Wellbeing Board

Progress since last HWB

Met with LGA

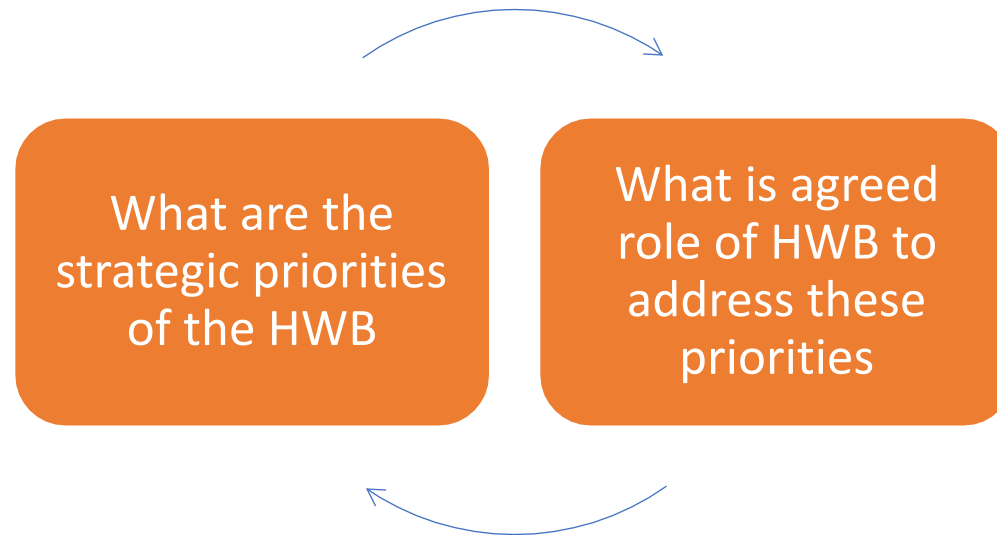

Development session

Elected member workshop

Aims of workshop

- Understand the current JSNA and hear from the resident voice work.
- Establish priorities for the HWB strategy.
- What is the role of HWB to address these priorities.

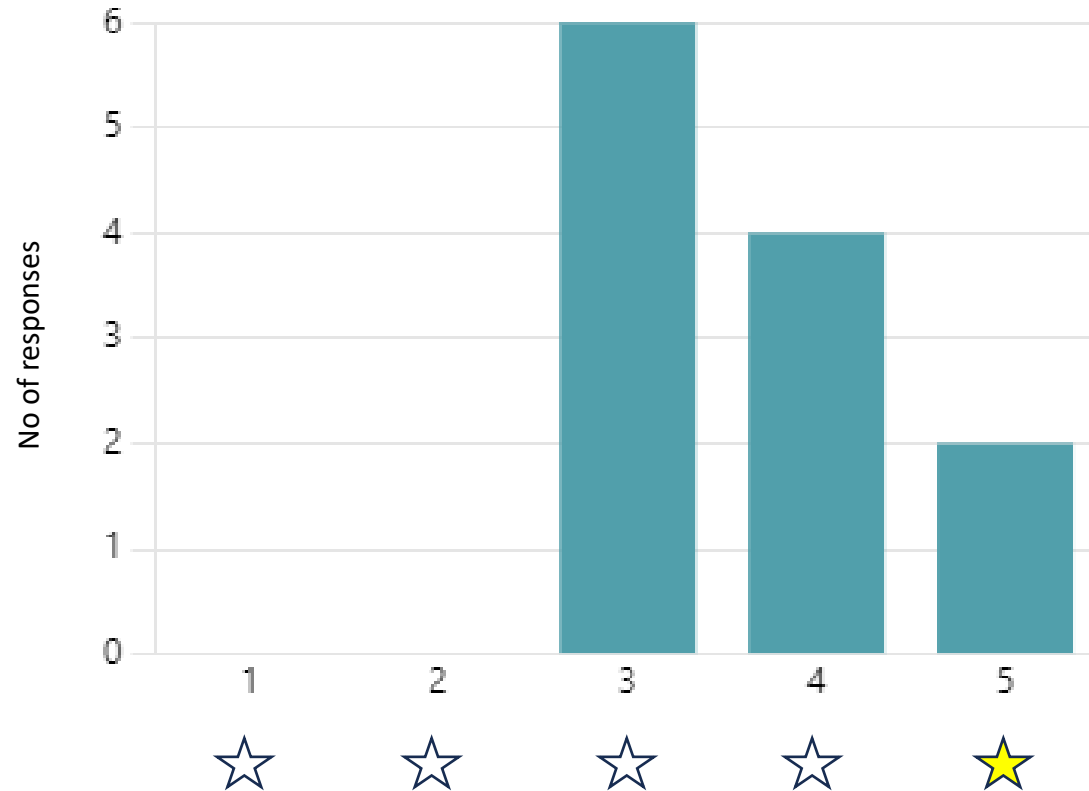

What would you like to achieve in the HWB Development Session on the 9th February?

- Establish priorities and review governance structure/way of working
- Clarity on the role of the H&WBB
- To understand local priorities
- Greater sense of purpose of the H&WB or making sure this is communicated to all members
- Agreement of targeted, tangible actions ways of tracking delivery of the tangible actions
- Clarity of agendas and topics for further detailed consideration.
- Plan to increase diversity within the H&WB

Results from the pre-session survey

How effective is the Health and Wellbeing Board?

12/19 responses

Results from the pre-session survey

What do you think the Health and Wellbeing Board does well?

- Bring people involved in health & wellbeing together
- Hearing resident voice/lived experience
- Range of topics discussed
- Brilliant Chair
- Good support from Public Health colleagues
- Good connections with HWB Strategy and JSNA

What do you feel could be improved?

- Establish and agree strategic priorities/areas of focus
- Greater sense of purpose
- Review role & governance
- Support on how to be a better HWB

Activity 1

What does the HWB need to do that no else can or does?

- How does this differ from Place Committee, Health Overview & Scrutiny Panel, Team Doncaster, Delivery groups and boards

- Prevention
- Wider Determinants
- Commercial determinants (anti harm not anti-business)
- Holistic view of health & wellbeing – prioritisation and focus
- Strategic, Forward, Long Term look at health and wellbeing
- Fairness & Wellbeing Commission recommendations
- Links to VCFS
- Childrens health but what's not already covered elsewhere.
- Oversight of delivery of health services but not the detail

Difference with other structures

Place Committee	NHS, Care, Access, Treatment, react to top-down must do's, service models, delivery, how health system responds to the strategy
Health and Overview Scrutiny Panel	Backward look to what has taken place, hold to account
Team Doncaster	Wider range of wellbeing, economic, environmental, skills, culture, children, city wide priorities
Delivery groups	Crowded space

-
- Evidence based models, data and insight based.
 - A "doing" space and an accountability space – do the strategy and then deliver
 - Key distinction between the strategy and the board role
 - Public involvement aligned to priorities.
 - Humanise the work/ real stories.
 - Create challenge to other boards (that Team Doncaster can't)
 - Focus on HWB strategy priorities
 - Critical challenge – through voice on the priorities

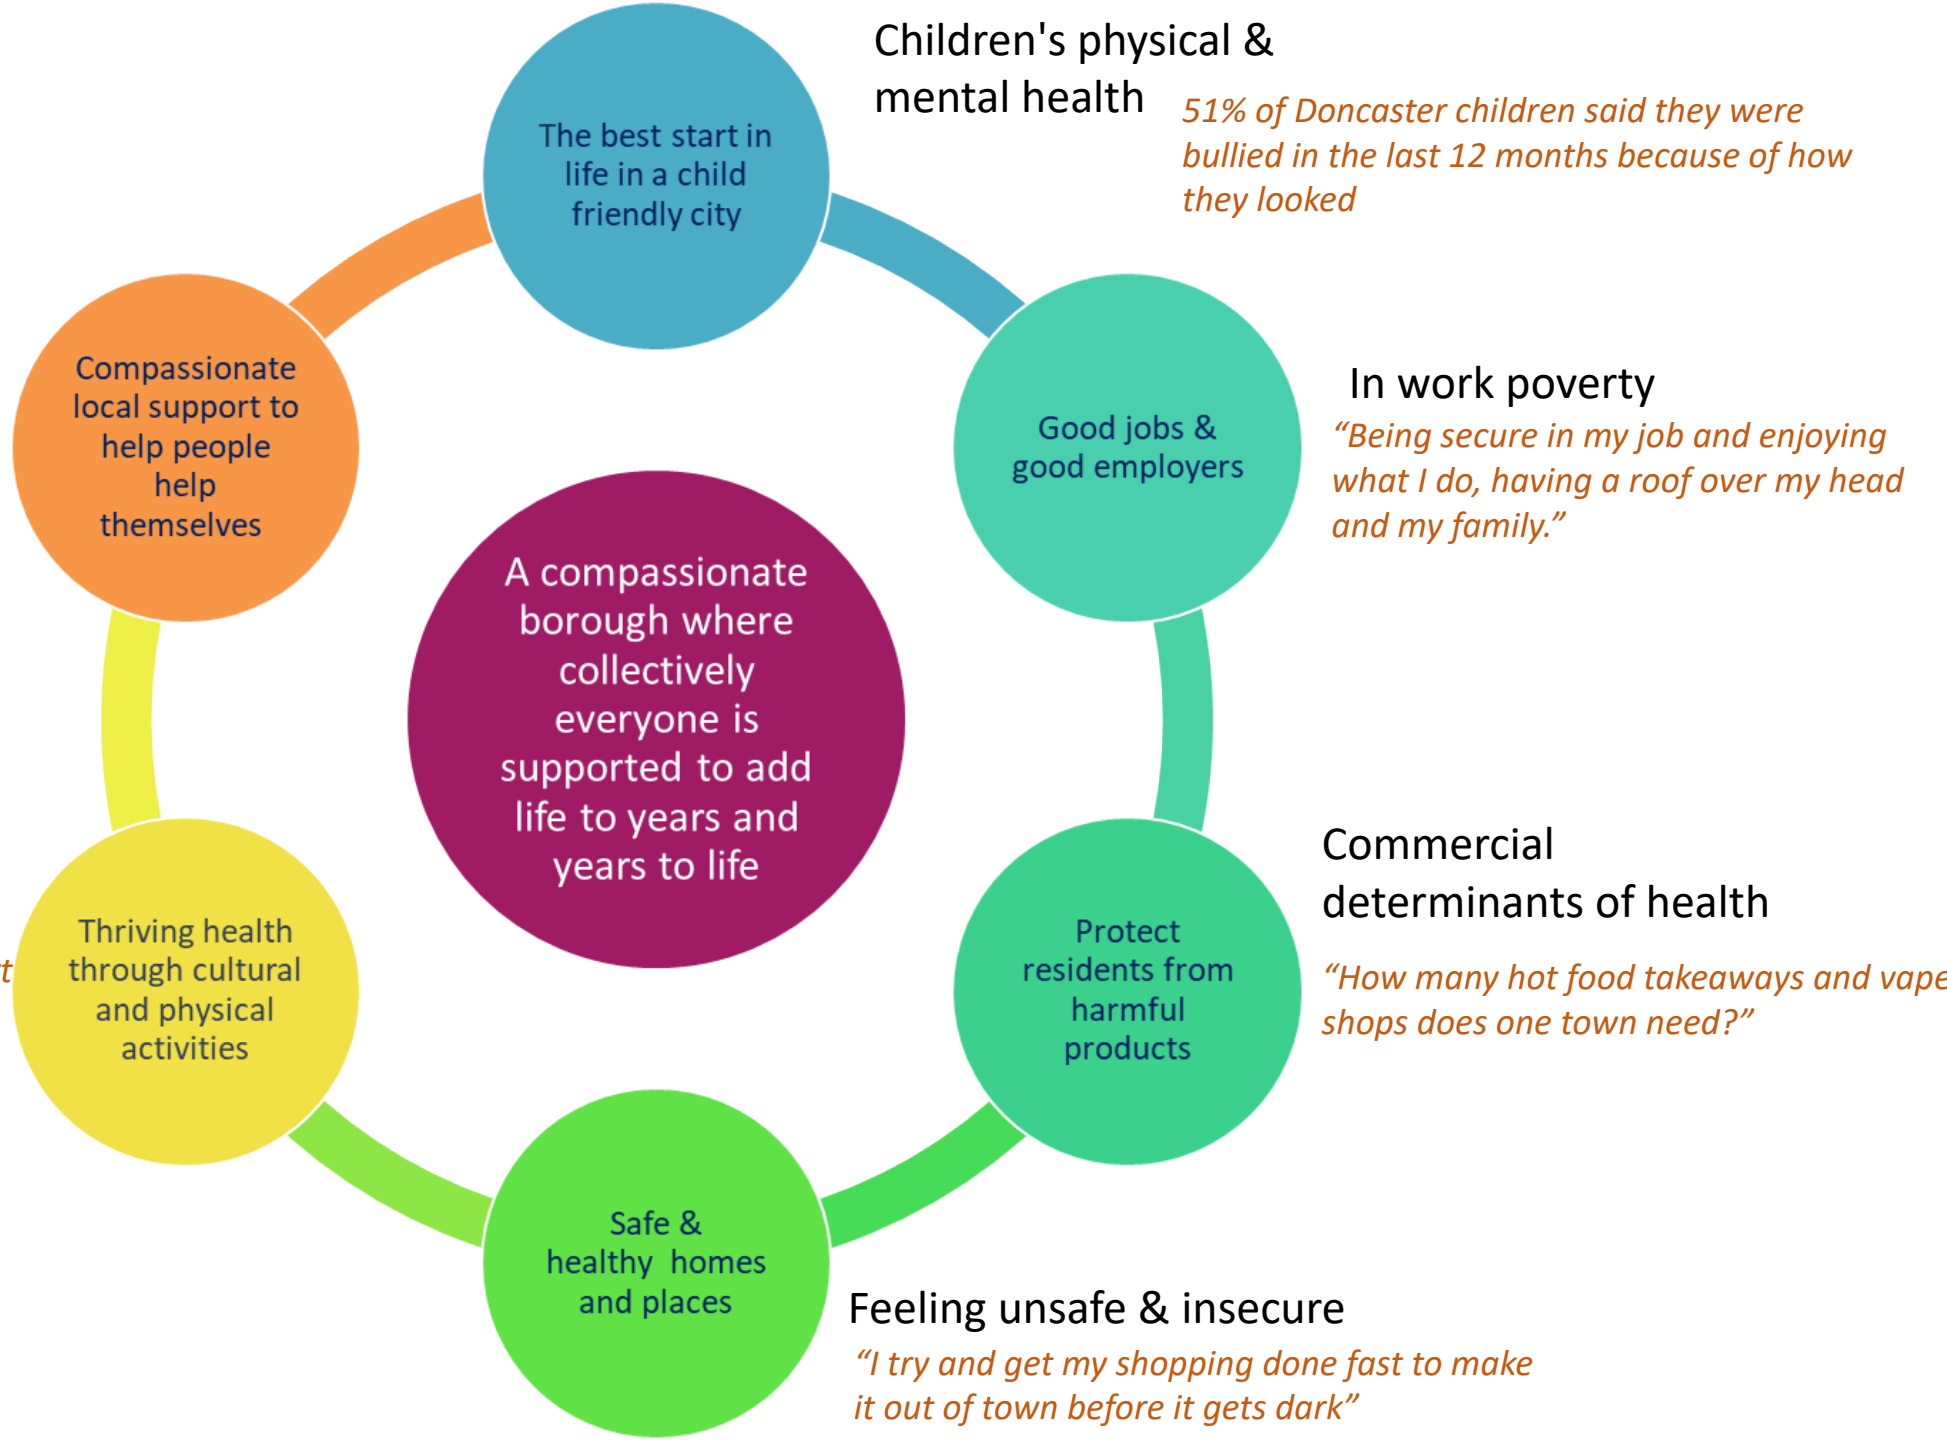

6 Areas

Access to wellbeing services & maintaining independence

Being able to "get out and about", keep moving, eat well, being independent, keep busy"

Inactivity, mental health and social isolation

"Helping each other. Going out. Support network. Talking people. Walking with friends...Gardening."

A compassionate borough where collectively everyone is supported to add life to years and years to life

Feeling unsafe & insecure

"I try and get my shopping done fast to make it out of town before it gets dark"

Activity 2 – Define the Priorities

Q: In your groups based on what you have just heard from the data and insight from residents

Discuss:

- Do these cover what is actually important
- What should — and more importantly should not be a priority
- Is it being addressed elsewhere?
- Will everyone understand what the HWB is targeting?

Priorities (areas of focus)

- Safety in communities
- Road safety
- Mental Health and Wellbeing
- Starting Well
- Children’s Oral Health
- Frailty
- Women’s Healthy Life expectancy
- Fairness and Wellbeing Commission recommendations
- Tipping Points

Principles/ways of working

- Focus on a small number of specific challenges
- Set out what we won’t do
- Focus on what we don’t know
- Doncaster Specific Priorities
- Actions that are deliverable within the life of the strategy
- Evidence based solutions
- Doing/learning/ influencing
- Asset based approaches

Lenses

- Deprivation
- Inequalities
- Geography
- Ethnicity

Adding Life to Years and Years to Life

Closing the women's and child health gap

- Oral health
- Smoke free generation
- Women's health strategy and plan
- Food Plan

Improve the experience of ageing

- Social isolation & connectedness
- Physical activity & creative opportunities
- Support Doncaster residents' transition into the digital age 
- Create sustainable, trusted & accessible community support for good health & wellbeing 

Healthy places to live, grow and play

- Safe streets & neighbourhoods 
- Stimulate a demand for sustainable transport as the preferred choice. 
- Healthy homes (decent homes, modifications, temperature) 
- Adopt a CDoH approach to licensing, planning, advertising, and marketing, event sponsorship

 Fairness Commission Recommendations

Closing the women's and child health gap

Why is this important for Doncaster?

- Healthy life expectancy has been falling in Doncaster.
- By the age of 5, a third of children in Doncaster have tooth decay higher than other South Yorkshire LA areas, Y&tH and England
- Overweight & obesity levels in children are higher than regional & national levels.
- Children seriously injured on the roads has been increasing and is higher than regional & national levels.

What have residents told us?

“Important to be healthy to help family”

In Doncaster's Pupil Lifestyle Survey , 51% of Doncaster children said they were bullied in the last 12 months because of how they looked

“I want to lose weight, not physically but for my mental and emotional wellbeing. I want to be there for my buddies and be there to play with them more in the playground and on the trampoline.”

“To prepare and cook healthy food is hard to fit in when you have a busy working family.”

What do we do already?

Our Pupil Lifestyle Survey provides an extensive longitudinal evidence base

Starting Well Board & CH & YP Exec?

PH Commissioned services

What are we going to do?

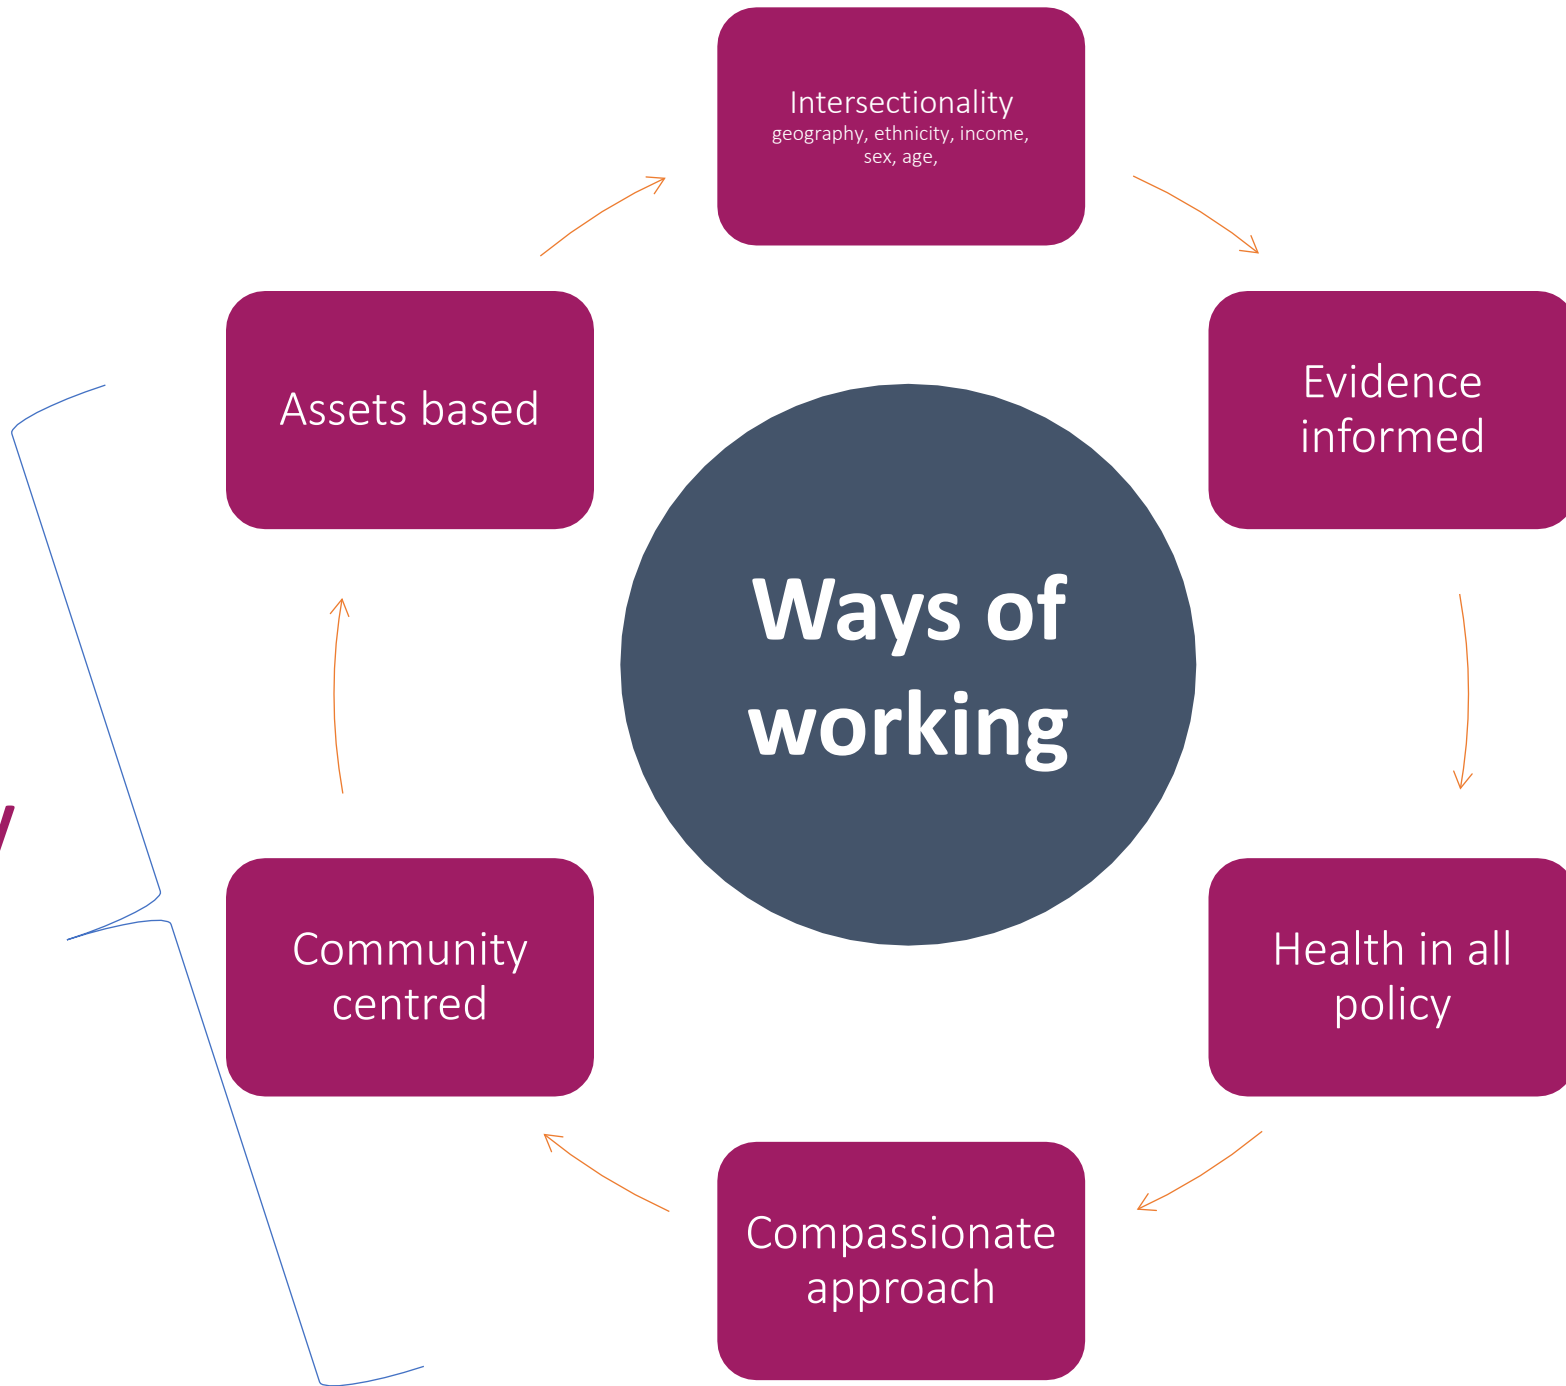

- Produce a women's health strategy and action plan.
- Deliver a food plan for Doncaster
- Produce an oral health needs assessment and action plan.
- Develop and deliver a smoke free generation programme.

How will we know we are making a difference?

Supported by:

Children & YP Exec,
Starting Well Board, Get
Doncaster Moving Board

Community Prevention Principles

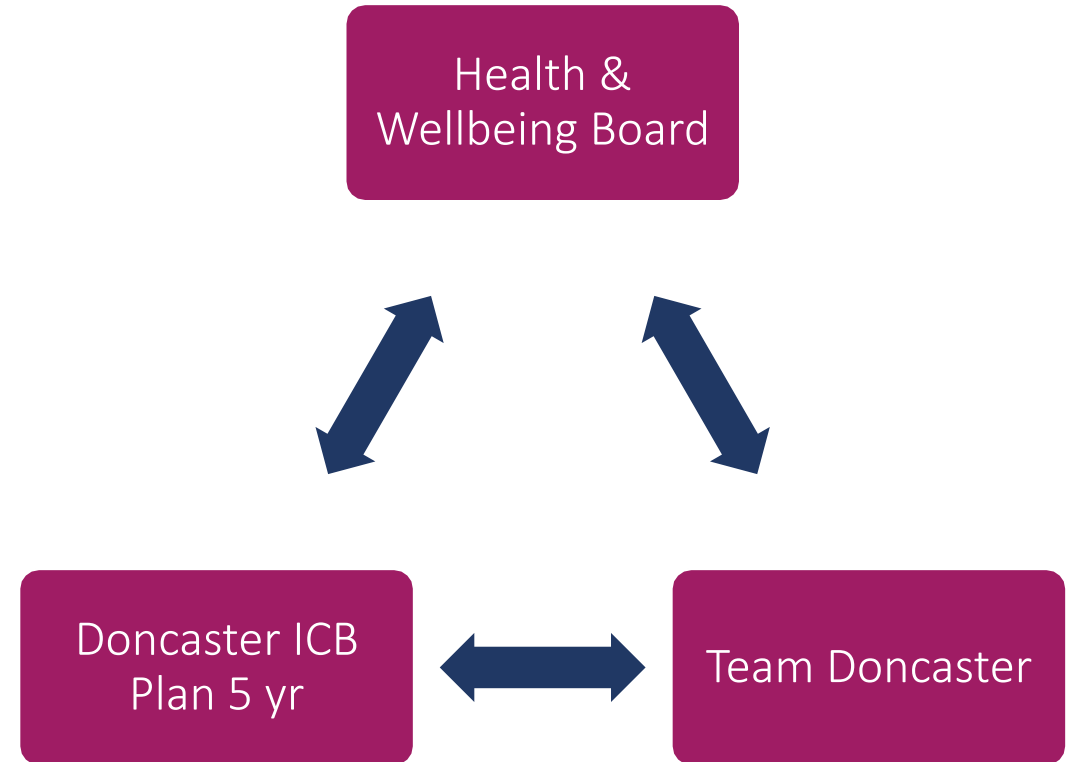

Timeline & next steps

Crowded space :sharing of work and progress with colleagues HWB/ICB/TD

LGA support

- Conversations with colleagues 5th March – 26th March
- Workshop with LGA after Easter

Doncaster Fairness and Wellbeing Commission

Final report update

Doncaster Fairness & Wellbeing Commission – call & response

Rt Hon Dame Rosie Winterton MP will be writing to strategic partners and organisations.

Reflect on the Fairness and Wellbeing Commission report and consider what steps their organisation can take to address the findings and recommendations outlined within it.

Consider are there any existing or future opportunities to incorporate action towards the recommendations within your organisational plans and policies?

We are seeking to collect and publish responses to the Fairness Commission report to showcase Doncaster's collaborative efforts in addressing the findings presented.

We welcome responses by the **end of April 2024**
