

## General instructions

The summary worksheet is fed from the data in the subsequent worksheets - do not enter directly in to the sheet.

Within the subsequent worksheets, there is a sheet for each of the 7 groups of capabilities.

Within these worksheets, a row should be completed for each secondary care provider who completed a Digital Maturity Self-assessment.

An unweighted average across all providers will be automatically calculated.

The baseline score to be recorded should be taken from the results of the Digital Maturity Self-assessment, shared with providers and CCGs.

The target future scores should be set with reference to the baseline, the DMSa questions, and the capability deployment schedule.

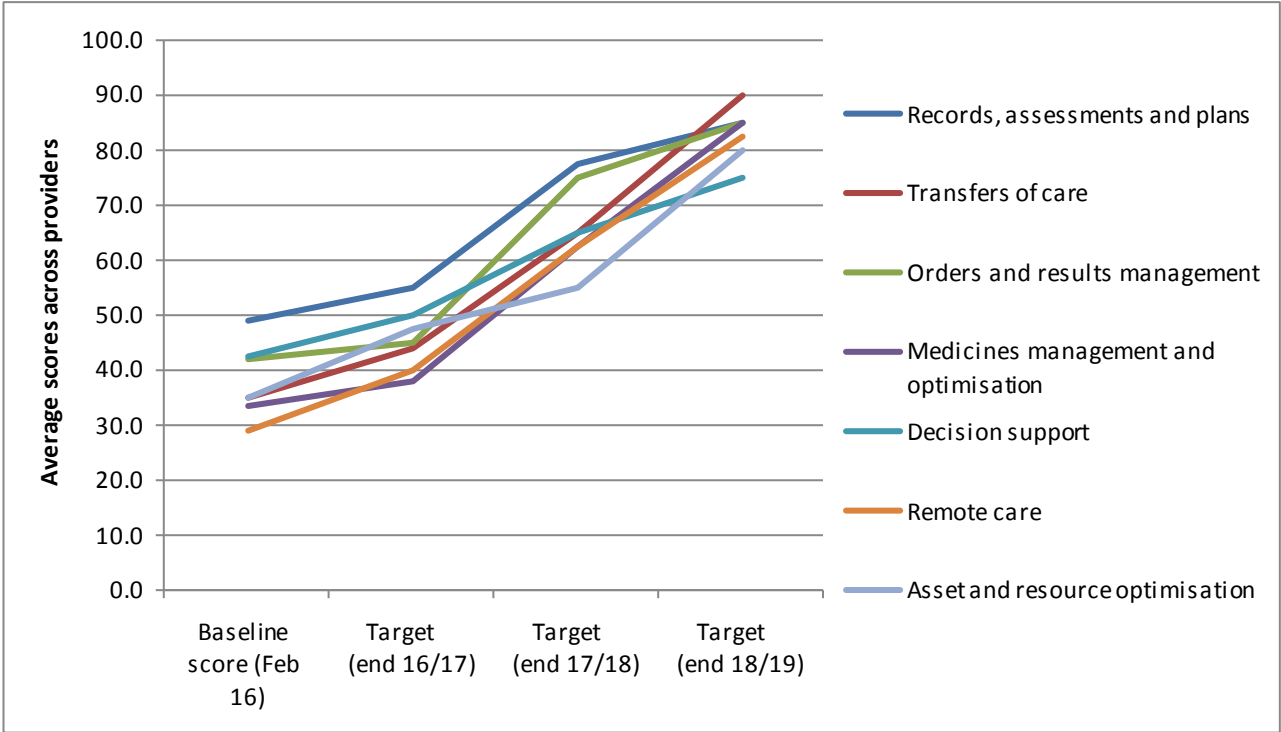

Refer to section 6.23 of the guidance for background information on the capability trajectory template.

Refer to Annex 3 of the guidance for an illustration of a capability trajectory summary.

This template can be downloaded at [www.england.nhs.uk/digitaltechnology/info-revolution/digital-roadmaps](http://www.england.nhs.uk/digitaltechnology/info-revolution/digital-roadmaps).
