

**To the Chair and Members of the
HEALTH & WELL BEING BOARD**

PERFORMANCE REPORT Q1 2016-17

EXECUTIVE SUMMARY

1. A refreshed 'outcomes based accountability' (OBA) exercise was completed parallel to the refresh in the Health and Well-being strategy. The five outcome areas remain and a new outcome on drugs has been introduced for 2016-17. A number of specific indicators have been identified which will measure our progress towards these outcomes in 2016-17. The 6 outcomes are;
 - Outcome 1: All Doncaster residents to have the opportunity to be a healthy weight
 - Outcome 2: All people in Doncaster who use alcohol do so within safe limits
 - Outcome 3: Families who are identified as meeting the eligibility criteria in the expanded Stronger families programme see significant and sustained improvement across all identified issues.
 - Outcome 4: People in Doncaster with dementia and their carers will be supported to live well. Doncaster people understand how they can reduce the risks associated with dementia and are aware of the benefits of an early diagnosis
 - Outcome 5: Improve the mental health and well-being of the people of Doncaster ensures a focus is put on preventive services and the promotion of well-being for people of all age's access to effective services and promotes sustained recovery.
 - Outcome 6: Reduce the harmful impact of drug misuse on individuals, families and communities
2. Further information and narrative around the performance is available in **Appendix A**.

EXEMPT REPORT

3. NA

RECOMMENDATIONS

4. The Board is asked to:-
 - a) Note the performance against the key outcomes
 - b) Receive and note the short presentation from the 'Dementia' area of focus
 - c) Agree what area of focus the Board would wish to have further information in Q2 2016-17

WHAT DOES THIS MEAN FOR THE CITIZENS OF DONCASTER?

5. Good Performance Management arrangements of the priorities set out in the Health and well-being strategy will ensure services improve and peoples experience in the health and well-being system is positive.

BACKGROUND

6. The Health and Well Being Board have chosen to use Outcomes Based Accountability (OBA) to support the delivery of improvement against the key priorities in the health and well-being strategy. **Appendix A** sets out the five outcomes and the main *indicators* associated with each. The OBA methodology moves away from targets for the whole population indicators and this is reflected in this report, instead the trend and direction of travel is the key success criteria.
7. We have introduced a basic forecast into some of the indicators contained within Appendix A which should help the board to assess if the direction of travel is acceptable and if not seek to understand the options and implications of such a trend. The forecast is a linear forecast and only used if there is an acceptable amount of data to base a forecast on. Furthermore if there have been any significant deviation within the period that may impact on the validity of a linear trend a forecast has not been made.
8. As agreed with the board in Q1 2015-16 a short presentation on one of the areas of focus will be provided at each quarterly performance update. In Q4 the board agreed to invite the lead officer for Dementia to give a short update in Q1 2016-17. The Board will need to decide which area of focus should be invited for Q2 2016-17.
