How will this contribute to improving health and wellbeing in Doncaster?

The Doncaster Health and Social Care community has a long history of working together in partnership to achieve positive change for local people. Each of the health and social care organisations within Doncaster already has plans for the future and these have often been developed in partnership. In some cases, such as the Better Care Fund Plan, the plans are jointly owned. However there is a strong view that in order to transform our services to the degree needed to achieve excellent, sustainable services in Doncaster we now require one shared vision and plan for the whole of Doncaster.

For this reason the key leaders across health and social care in Doncaster have come together over summer 2016 to develop the Doncaster Place Plan and within it a shared vision. This is the first time in Doncaster that we've articulated a shared vision across health and social care and there has been significant contribution across a wide set of local organisations:

- Doncaster & Bassetlaw Hospitals NHS Foundation Trust (DBH)
- Doncaster Childrens Trust (DCT)
- Doncaster Local Medical Committee (LMC)
- Doncaster Metropolitan Borough Council (DMBC)
- Fylde Coast Medical Services (FCMS)
- NHS Doncaster Clinical Commissioning Group (NHS Doncaster CCG)
- Rotherham, Doncaster & South Humber NHS Foundation Trust (RDASH)
- Emerging GP Federations

In developing the Doncaster Place Plan we have recognised the work that has already been done locally and the plans that are already in place. The Place Plan is also set in the context of the wider South Yorkshire & Bassetlaw Sustainability and Transformation Plan (STP). The Place Plan, the STP and other local plans will in totality address the challenges that we face as a health and social care community.

The vision for the Place Plan is based around the development of an agreed set of design principles and a description of a future landscape for health and social care services in Doncaster. Our joint vision is:

Care and support will be tailored to community strengths to help Doncaster residents to maximise their independence, health and wellbeing. Doncaster residents will have access to excellent community and hospital based services when needed

The full Place Plan forms the body of this paper and describes our focus over the next 5 years. In line with the Five Year Forward View, our aim is to further develop out of hospital services and to foster community resilience, so that we can better support individuals and families, provide services closer to home and reduce demand for hospital services. We will monitor our progress on an on-going basis and adjust our focus as required.

Recommendations

The Board is asked to:-

- Consider the Doncaster Place Plan
- Endorse the overall direction of travel within the plan
